

Dear Supporter,

Thank you for your interest in supporting The Society of Women Engineers (SWE) at the University of California, Riverside. For many students, the success of their academic career depends on their experiences in the university. As a nationally recognized society, we serve our members by providing them with these experiences that lead to opportunities in their professional careers. SWE-UCR has continuously been recognized over the years for exceptional events at the university and in the community

- Best Organization Award 2015
- Best Outreach Event 2016

Offering your support through our sponsorship program gives us the resources to offer future opportunities to our members. Forming a relationship with a SWE-UCR benefits both the student and the industry. As the field of engineering expands, SWE members offer unique leadership skills that go beyond the classroom and prepare them for the workforce even sooner. Developing a relationship with SWE-UCR gives you access to our most outstanding members!

Become a sponsor today, look for a better future tomorrow.

Sincerely,

Sirina Nabhan

SWE-UCR Collegiate Chapter president 2016-2017

SWE-UCR aims to promote diversity in the engineering workforce by providing leadership and professional development opportunities for women pursuing careers in engineering. The growth and success of our organization is dependent on the generous contributions of our donors.

WHERE DO YOUR DONATIONS GO?

OUTREACH

SWE at UCR is committed to promoting higher education through our outreach programs held throughout schools in the local Riverside Unified District. In addition, we host our annual Bourns Engineering Day – an event catered to about 2000 girl scouts and K-12 students to provide an engaging and educational science and engineering fair. Our sponsors help us offer these amazing events possible at no cost to the participants. Some examples of our outreach events include:

- Bourns Engineering Day
- Curtis Middle School Day
- SWE-OC Girl Scouts Day
- Colton Middle School Career Day
- Val Verde Career Day
- Girl Scout Discovery Day
- MESA Night

TEAM TECH

The team consists of a multitude of different majors within the engineering college, making us perfect to tackle any engineering problem that comes our way. Our team commences of 12 undergraduate students and 1 graduate student who all have experience working on engineering projects. This project gives undergraduate students an outlet to experience tackling real engineering problems faced in the industry, while giving a company a solution to a problem it's facing

PROFESSIONAL DEVELOPMENT

Society of Women Engineers

SWE additionally recognizes the importance of professional etiquette and prepares UCR women to succeed not only in academics, but also in professional settings.

- **SWE National Conference** One of our highest costs each year is sending officers and members to the SWE annual conferences. These conferences are great opportunities for our members to network, improve their professional skills, and attend informational sessions. This year's SWE National Conference takes place in Pennsylvania and our goal is to send 15 women. The overall estimated cost to send one student to the conference is \$600. Donations would help defray the costs of hotel accommodations, airfare, and registration fees for the conference.
- **Evening with Industry (EWI)** This event is an annual banquet hosted by SWE UCR that connects UCR students to company representatives in a professional setting. SWE UCR will host our 5th annual Evening with Industry this coming January. UCR students from every engineering major are seated with company representatives for an evening dinner full of engaging conversation and networking. If you are interested in representing your company, *please indicate so on the Evening with Industry Interest form.*
- **Research Networking Night (RNN)** SWE UCR will host our 3rd Annual Research Networking Night this year as an effort to increase student involvement with on campus and CE-CERT research. Similar to Evening with Industry, RNN connects students to research faculty looking to fill research positions with undergraduate students. This event is completely planned and executed by voluntary work of our SWE officers.

GENERAL EXPENSES

Additionally, SWE at UCR is a nonprofit student run organization and the funds we raise are directly used to promote UCR women into the engineering workforce. We rely on the generous donations of our sponsor to help us with everything from general club operational expenses in addition to leadership development conferences and yearly club supplies. General expenses contribute to the following:

- Operational expenses
- Officer Leadership Development Conferences
- Academic and event supplies

OTHER WAYS TO HELP

- **Send us your merchandise.** We'd love to help promote your company to our members and student body with your merchandise.
- **Fill out the Evening with Industry interest form.** We will send you information on how your company can sponsor a table

If you have any questions or concerns, please feel free to contact us at swe.ucr@gmail.com

Thank you for your time! ☺
